01/30/26 10:00am. In person

Hi Marvens Sainterlien,

I like the overall plan and direction. I would like to incorporate my logo into the design, ideally using it as an accent color. I also prefer a dark mode theme for the site.

I've revised the sitemap wireframe and overall plan, and I'm happy to confirm that I approve the updated structure and direction.

Please let me know if you need anything further from me as you move forward.

Best regards
